TECHNICAL DATA SHEET

EGGER EURODEKOR® E1 C E

Material Specification:

Melamine faced wood-based panel with a decorative surface.
The substrate can be either EUROSPAN® Rawboard, EGGER MDF
or EGGER OSB Combine

Area of application:

Decorative wood based panels for interior uses

CLEANING AND CARE INSTRUCTIONS

Due to their resistant and hygienic surfaces, EURODEKOR® melamine-faced boards do not require any special maintenance. The surface is generally easy to clean; this also applies to textured surfaces.

The recommended cleaning methods according to the degree of soiling are as follows:

LIGHT, FRESH SOILING

Clean with a paper towel, a soft clean cloth (dry/damp) or a sponge.

If using a damp cloth, dry the surface with an absorbent paper towel or microfibre cloth.

HOW TO AVOID STREAKS

Streaks often form when the surface is cleaned with organic solvents, together with cold water and old cloths. To ensure no streaks occur when cleaning, we recommend wiping the surface down with warm water and then drying it using normal paper towels or microfibre cloths.

NORMAL SOILING - EXTENDED CONTACT TIME

Clean with warm water, a clean rag or microfibre cloth, a soft sponge or soft brush. Use normal domestic cleaners or soaps that have no abrasive ingredients. Then wipe with fresh water, removing all traces of the cleaning agent, to prevent streaks forming. Dry the surface with a clean, absorbent cloth or paper towels.

The following cleaning agents should not be used under any circumstances:

- Scouring and abrasive agents (abrasive powders, scouring pads, steel wool)
- Polish, washing powder, furniture cleaner, bleach
- Detergents with strong acids and acidic salts
- Steam cleaning equipment

CARE AND USAGE TIPS FOR MATT SURFACES SUCH AS ST9

Surfaces with a matt finish have a very natural look and feel. The oiled or matt lacquered type finish thus retains the characteristics of the original, solid wood surface. Like high-gloss or solid wood surfaces, a few points need to be considered
